

## Quiz

1. Define electric charge.
2. State Coulomb's law.
3. Define one coulomb of charge.
4. Define electric flux.
5. Define electric field intensity.
6. Define one volt.
7. Electric field is scalar or vector?
8. What is electric potential?
9. What is unit of charge and define it?
10. What are equipotential surfaces?
11. Define dipole moment and write its formula and unit.
