

Paragraph Writing

Techniques for Paragraph Writing

1.Coherence

Every line of paragraph should connect to each other.

2.Cohesion

It means that every paragraph should link to each other.

3.Transitional Hook

In paragraph, writer does not focus on one idea in all paragraphs,because writer expands essay according to its condition.Writer cannot bring sudden change in paragraph.So

writer will bring a turn in paragraph. This turn is called transitional hook.

4.Reversal Hook

It means that first lines of next paragraph should be linked to the ending lines of previous paragraph. One idea in one paragraph is necessary for good impression on reader.

5. Brain Storming

Writig before an essay ,many questions raise that what is perfect topic?what are problems?why it is important ?how we can solve difficulties?local impact of mentioned thing in essay,merits and demerits. Discussion of all these things is called brain storming.

6. Clustring

Link between ideas is called clustring. Writer convey a clear message to reader through clustring.
