

Daily Lesson Plan Template With Advice

Title: _____

Name: _____

Topic	What is this lesson about?
Content	Describe the important concepts, information, and skills you are going to develop in this lesson. You can also identify standards in here.
Goals: Outcomes	The broad nature of the lesson. Should be directly related to the content.
Objectives	Describe the specific skills or performance criteria that the students will be able to demonstrate at the end of the lesson.
Materials and Aids	What will you be using to complete the lesson?
Procedures/Methods	
A. Introduction	How will you get the students' attention? How will you relate it to what they already know.
B. Development	What instructional model will you be using? For example, direct instruction, cooperative learning, or Inquiry.
C. Practice	How will you allow students to practice what they have learned? How will you guide this?
D. Independent Practice	How will you provide the students an opportunity to practice the skill while you can informally measure their progress?
E. Accommodations (Differentiated Instruction)	How will you differentiate instruction based on learner needs? How will the lesson be adapted or modified for special needs students?
F. Checking for understanding	How will you determine that the students have reached a proficient skill set from the lesson?
G. Closure	How will you wrap up the lesson? Remind students why they learned this.
H. Evaluation	How will you assess if the lesson was successful?

I. Teacher Reflection

Complete this after the lesson is complete. Just answer this question: How could you improve this lesson?
