Max Marks 30.

SEMESTER 3rd (mid term)

Time Allowed 2 hours.

PAPER: STATISTICS.

Give the following questions. (3*10=20)

1. Define parameter and statistic?
2. Define classification and tabulation?
3. Define arithmetic mean and median?
4. Define primary and secondary data?
5. Define absolute and relative measures of dispersion?
6. What is co. efficient of variation?
7. Define discrete and continuous variable?
8. What is binomial experiment?
9. What are the properties of binomial experiment?
10. What is Poisson probability distribution?
