

Women Education

- Education plays a very significant and crucial role in the Women development of nation especially in the economic development of a country.
- Women education improves family health' economic leads directly to growth for the family and for society, as well as lower rates of child mortality.
- Educating women is the most powerful or effective way to address global poverty.
- Educated women are more likely to educate their own children- ending the cycle of illiteracy in one generation.
- “If you educate a man you educate an individual’ but if you educate a women you educate a family or nation”. (Dr. James Kwegyir-Aggrey)
- Our holy Prophet Hazrat Muhammad Sallallahu Alaihi Wa’aalihi Wasallam has laid great stress on acquiring education for both men and women. There is no discrimination between them.
- Women education is a process of educating girls, women, in order to make them efficient and effective member of society both at home and outside. It should enable them to look after and tack care of their daily life duties and responsibilities as well as their legitimate rights.
- Hazrat Muhammad Sallallahu Alaihi Wa’aalihi Wasallam said:

“The best of you are those who

Are the best to the women?”

Need And Importance Of

Women Education

- Education for a girl child means making the next generation well educated , full of virtues free from the useless superstitions confident and capable to something good for the family, for the society and for the country.
- Decrease maternal mortality educated women (with greater knowledge of health).
- Decrease child marriage “child marriage almost always results in the end of a girl’s schooling. The result is illiterate or barely literate young mothers without adequate tools to build healthy educated families.
- Education of women enables the women, or girls to secure their rights.
- We need education for women because it changes the world.
- Educating women and girls is an important step in overcoming poverty.
- Educating women and girls are less likely to be victims of domestic and sexual violence or to tolerate it in their families.
- Educating women tend to have fewer and healthier babies.
- By sending a girl to is far more school, she likely to ensure that her children also receive an education.
- Educated women have a greater chance of escaping poverty. Leading healthier and more productive lives, and raising the standard of living for their children, families and communities.
- Improving educational opportunities for girls and women helps them to develop skills that allow them to make decisions and influence community change in key areas.

- If the women in any country are not educated about half the people in that country will be ignorant. The result is that such a country will not be able to go along with other nations in development and progress.

Problems about Women Education

- Women are deprived from education due to parent's poverty.
- Education is costly for female students rather than male students.
- Early marriage is also the problem of women education guardians think that if female is aged, they will not get any good bride-groom.
- Unawareness of guardians always comments as negative on women education. They have negative idea that women will do no help in future.
- Most of the families controvert women education because of religion.
- Some guardians thought that higher educated women can't follow the religious activities properly.
- Lack of transportation road also the cause for lacking women education, for long distance girls cannot go to school.
- Lack of residence facilities most of the women can't continue their educational process.
- Most of women can't continue their study because of security, when female stays in hostel their parents feel lack of securities for their daughters.
- Male dominance in our society is a major problem of women education.
- Limited career fields for women are also a great problem about women education.
