

The Islamia University of Bahawalpur

Department of Biochemistry & Biotechnology

PhD Biotechnology

Semester: 1st

Paper: Advanced Molecular Biology

Credit Hours: 3

Book: Advanced Molecular Biology By Richard M. Twyman Neurobiology Division, MRC
Laboratory of Molecular Biology, Hills Road, Cambridge CB2 2QH, UK

Sr. #	Chapter Title	Pages
1	Biological Heredity and Variation	1-20
2	Chromatin	35-42
3	Chromatin Modification	
4	Chromosome Structure and Function	57-64
5	DNA Methylation and Epigenetic Regulation	93-102
6	The Gene	103-110
7	Gene Expression and Regulation	111-116
8	Gene Transfer in Bacteria	117-126
9	The Genetic Code	127-132
10	Genomes and Mapping	133-156
11	Mutagenesis and DNA Repair	183-200
12	Mutation and Selection	201-222
13	Protein Synthesis	313-322
14	Recombinant DNA and Molecular Cloning	323-340
15	Replication	389-410
16	RNA Processing	411-424
17	Transcription	443-458
18	Research Articles
