

C# String ToLower()

The C# ToLower() method is used to convert a string into lowercase. It returns a string in lower case.

Signature

```
public string ToLower()  
public string ToLower(CultureInfo)
```

Parameter

First method does not take any parameter.

Return

It returns a string.

C# String ToLower() Method Example.

```
using System;  
  
public class StringExample  
{  
    public static void Main(string[] args)  
    {  
        string s1 = "Hello C#";  
        string s2 = s1.ToLower();  
        Console.WriteLine(s2);  
    }  
}
```

Output:

```
hello c#
```
