

Lecture No. 31 and 32:

Database Programme with multiple features:

Create a form for the following form format

The image displays two versions of a database form. The left version is in design view, showing a grid background and the form's structure. The right version is in runtime view, showing the form's appearance when used. Both versions include four text boxes for 'Student ID', 'Name', 'Cell', and 'Degree'. Below the text boxes are navigation buttons: 'Delete', 'First', 'Last', 'Previous', 'Next', 'Add', 'Edit', 'Refresh', and 'update'.
