- *Carbo animalis* (contains phosphate of lime)
- *Carbo vegetabilis* (contains carbonate of potash)
- *Graphites* (contains iron).
- *Petroleum*
- *Kreosotum*
- *Aniline sulphate*.
- *Carboneum* (Lampblack).
- *Coal gas*.
- *Bisulphide of Carbon*
- *Carboneum oxygenatum*
- *Carboneum hydrogenisatum*
- *Ichthyolum*
- *Acetanilidum*
- *Naphthalinum*
- *Pix liquida*
- *Eupionum*
- *Antipyrine*

Mental generals

- Dullness is characteristic
- Selflessness

- Carbo animalis-Sensation of stupefaction in head with dulness in occiput, agg. from motion in cold, damp air, amel when at rest in warm room.
- Confused, did not know whether he had been asleep or awake; morning.
- Loss of memory, forgets word just spoken.
- Carbo veg- Memory feeble, flow of ideas slow; tendency to fixed ideas.
- Periodical want of memory. Confusion of head, making thinking difficult; morning on waking; he had to make great exertion, as if arousing himself from a dream.

- Graphites- Forgetfulness; dim recollection of recent events. Weakness in head, can scarcely think. Slow in thought; absent minded. Dread of work.
- Petroleum- Loss of consciousness. Very forgetful and disinclined to think.
- Anilinum-imbecility

- CS-Dulness of mind,
in the morning;
thinking is very
difficult.

- **Hard Working:** Carbons are hard workers. They have social standing and are quite unselfish.
- They do not believe in materialism, and they try to find a meaning for their existence, through their work.
- **Spiritual:** They give more to the spiritual aspect of the life. Carbons always try to find **father figures** or authorities.

constitution

Grauvogl's "Carbonitrogenoid Constitution". Best suited to venous and scrofulous constitutions. Vitality too low, sluggish and slow

Physical generals

Thermally CHILLY (Carbo
veg. is hot)

- Carboneum sulphuratum is sensitive to both cold and heat

- Craving for air is strong in the carbons, yet often easily chilled and just as easily overheated and complaints that come from overheating are related to the carbons.

- **Obesity-
Tendency
towards
obesity.**

- putrescence or putrid discharges or putrid exhalations from the body and offensive sores.

- *Carbo animalis* - All its secretions are offensive. Lochia offensive. Extremities - Night sweat fetid and profuse.
- *Carbo vegetabilis* - Rancid, saour, or putrid eructations. Flatus hot, moist, offensive.
- *Graphites* - Rotten odor from mouth. Breath smells like urine. Very fetid gas preceded by colic.
- *Kreosotum* - Mouth - Putrid odor and bitter taste. Nose - Offensive smell and discharge. Diarrhoea; very offensive; dark brown. Urine offensive. Lochia offensive

Weakness

- Gen, weakness-CARBOLIC
ACID, GRAPHITES, *carbo an, petr*, carb
veg, kreo

- *Carbo animalis* old people, and after debilitating disease, with feeble circulation and lowered vitality. Easily strained from lifting.
- Weakness of nursing women. Menses too early, frequent long lasting, followed by great exhaustion, so weak, can hardly speak.

- *Carbo vegetabilis* Patient seems to be too weak to hold out.
- Persons who have never fully recovered from the effects of some previous illness. The patient faints easily, is worn out, and must have fresh air. A lowered vital power from loss of fluids, after drugging; after other diseases; Unrefreshed after sleep.

- *Whenever this state is present the eyes show it.*
- *You know he is sick because the bright, sparkling look has gone out of his eyes.*

- *Carboneum sulphuratum* – Very useful in patients broken down by abuse of alcohol. EXTREME WEAKNESS in the morning; in old drunkards; in the heat of summer; during menses; after stool.

- **We find, also, that all the carbons act on the veins, producing varicose veins.**
- *Carbo animalis* venous constitutions
- *Carbo vegetabilis*- Marbled skin with venous over distension. Blood seems to stagnate in the capillaries, causing blueness, coldness, and ecchymosis. Varicose ulcers, carbuncles.
- *Graphites* - Varices of the rectum.
- *Carboneum sulphuratum* -Marked venous stasis in organs and parts. Varicose veins, lower limbs; LEGS
- Eyes - Arteries and veins congested.

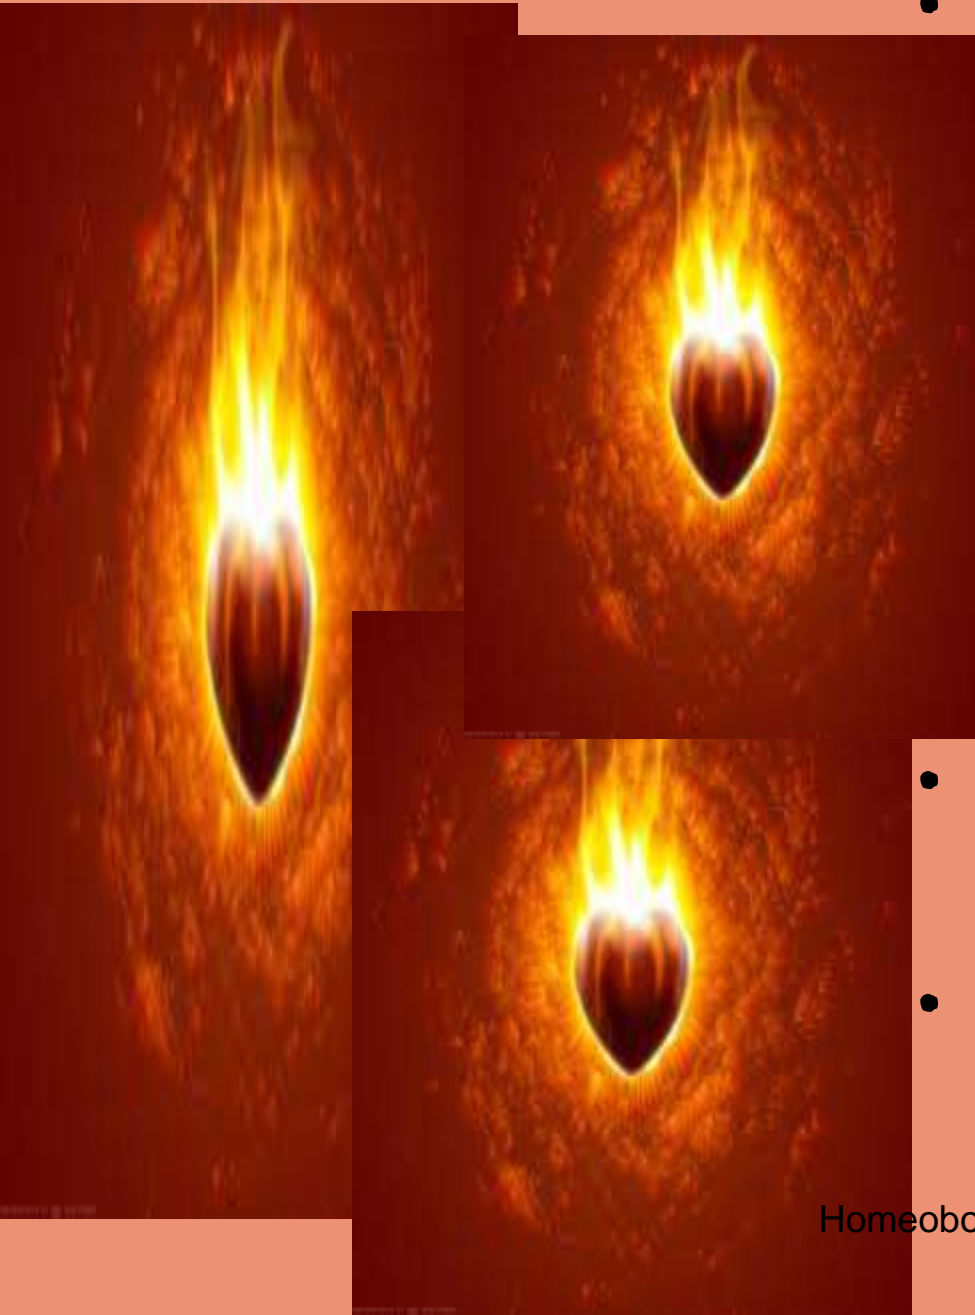

- **All the carbons tend to produce flatulence The flatus is offensive and has an odor like that of rotten eggs.**
- *Carbo vegetabilis* - Abdomen greatly distended; better, passing wind. Flatulent colic. The simplest food distresses.
- *Carboneum sulphuratum* - Pain with wandering swellings as from flatus. Distention, with soreness and rumbling. Eructations empty; after eating; ineffectual; after milk; while walking. Eructations ameliorate. Cannot bear tight clothing around waist and abdomen.
- *Kreosotum* - Distended abdomen.
- *Graphites* - Fullness and hardness in abdomen, as from incarcerated flatulence; must loosen clothing; presses painfully at abdominal ring. Croaking in abdomen. Pain of gas opposite the side on which he lies. Very fetid gas preceded by colic. Stomach pain is temporarily relieved by eating, hot drinks especially milk and lying down.
- Petroleum- Fetid flatus. Borborygmi in abdomen, with sensation as if abdomen were entirely empty.
- naphth - Incarcerated flatus in transverse colon causing cardiac distress

- TRIO OF FLATULENCE?

Hemorrhagic tendency-Dark fluid blood

- Kreosotum- Haemorrhages; passive, brown, dark; from small wounds
- Carbo-veg-- HAEMORRHAGES; blood dark oozing from shock after surgical operations persistent for hours or days.
- Carbo ani- the woman is more likely to bleed than the man; hence menses is too early, too long, too copious.
Prostration with every menstrual flow.
- The Carbo animalis woman sinks down at every menstrual period as if she would die.
- Graphites- is a rush of blood to head, with flushed face. of nose-bleed in elderly people where this symptom was present.
- Anilinum-Haemorrhage as a result of tumours of the the urinary passage (Ant., Pyrog.).

- Purple
discolouration

- *Aversion
fat*

- **Carbo animalis** - Repugnance to fat food.
- **Carbo vegetabilis** - Aversion to milk, meat, and fat things.
- **Graphites** – Aversion to meat.
- **Petroleum** - Strong aversion to fat food, meat

- Bad effects from spoiled fish and decayed vegetables.

*All the carbons act also on
the skin, producing
excoriations and inter-trigo.*

- *Skin dry, constricted, very sensitive,
rough and cracked, leathery*

- *Petroleum* - Intertrigo; psoriasis of hands. Thick, greenish crusts, burning and itching; redness, raw; cracks bleed easily. Rhagades worse in winter. ruptions, oozing out a sticky exudation.
- *Graphites* - Rawness in bends of limbs, groins, neck, behind ears. Unhealthy skin; every little injury suppurates. Ulcers discharging a glutinous fluid, thin and sticky. Cracks in nipples, mouth, between toes, anus.

- Pix-This remedy is indicated in skin diseases, when the eruption is scaly, and is attended with intolerable itching.
- The eruption is most pronounced upon the back of the hands. Cracked; itches intolerably; bleeds on scratching

naphtha

- Skin
- - Dermatitis; itching infiltration.
- - Eruptions at corners of mouth and pigmentation around nails.

- They affect the glands also, causing enlargement and induration of the axillary and other lymphatic glands, even as in the case of Carbo veg. and Carbo animalis, simulating cancerous enlargement and infiltration.
- **Graphites** - Swelling and induration of glands.
- **Carbo animalis** -Glands are indurated,, swollen, painful, in neck, axillae, groin, mammae; pains lancinating, cutting, burning.
- **Carboneum sulphuratum**- The glands of neck are swollen.Enlarged, thyroid gland.

- They all affect the mucous membranes, producing catarrhs of the nose, throat and lungs, and also of the bowels.

- **They all tend to produce asphyxia.**
- We find this prominently in Carbo veg., less so in the Carbo animalis, and very marked in Aniline and Carboneum.
Carboneum may produce asphyxia with convulsions simulating those of epilepsy.
Coal gas and Carbonic oxide, too, produce dyspnoea from deprivation of oxygen.
- Carboneum sulphuratum - Asphyxia from alcohol and from coal gas.

Carbo animalis

- Respiration
- Dyspnoea with anxiety and low spirits.
- Oppression in morning and after eating.
- Panting and rattling breathing.

acetanilidum

- Lungs-Respiration was most difficult as in a bad attack of asthma, he seized and clenched the hands of those around him.

EYE

- CS
- Myopia, asthenopia, and dis-chromotopia, cloudiness and atrophy of optic disc and central scotoma for light and for red and green not for white.
- Optic neuritis advancing toward atrophy
- Naphthalinum-It has a marked affinity for the eye, where it produces detachment of the retina, papillo retinal infiltration and patches upon the retina.
- It also causes and therefore cures opacity of the cornea as well as the lens.

eye

- Graph-Short-sightedness. Heaviness of the eyelids. Severe inflammation of the edges of the eyelids.
- Petr-Far-sighted, cannot read fine print without glasses.
- Kreo- Dimsighted : as if looking through gauze; as if something was floating before eyes, obliging to wipe them constantly.

- Acetanilidum-Pallor of optic discs, contracted visual field and shrinking retinal vessel, mydriasis.

Action on occiput

- Petroleum - Headache; in occiput, which is as heavy as lead; pressing pulsating pain; as if everything in the head were alive, numb, bruised, as if made of wood.
- Graphites - Pressive headache in the occiput,
- Kreosotum - The whole occiput seems too full and heavy, and gives rise to a sensation as if he would fall backward,
- Carbo animalis - Heaviness of the head, especially in the occiput, and of the left temple, with confusion,
- Carbolicum acidum - Dull, pressing, occipital headache,
- Carbo vegetabilis - Pressure in the occiput, especially after supper,

- *The Carbons produce just such a state, a settling away and absorbing of the gums.*
- Carbo vegetabilis- They get spongy and bleed easily, and hence looseness of the teeth with bleeding of the gums, which are very sensitive.

MODALITY

<Damp weather

<open air -Carbo vegetabilis, Kreosotum

< Carbo vegetabilis - Worse from fat food, butter, coffee, milk,

Carboneum sulphuratum - Worse, after breakfast;

Kreosotum Better, from warm diet.

- Kreo– Worse after menstruation.
- Graphites - Worse, during and after menstruation.
- Carboneum sulphuratum- Complaints worse before, DURING and after menses.
