Q. No.	Question	Marks	CLOs
Q.1.	Professionalism at work involves competence, a sense of _____ and excitement, good conduct, and personal commitments	1	CL01
Q.2.	Engineer's main responsibility: Top performance and _____.	1	CLO1
Q.3.	Working effectively as an engineer requires the virtues of _____ to employers and organizations, collegiality, respect for authority, and contributing to an ethical climate within the organization.	1	CL01
Q.4	Respect for _____ is important in meeting organizational goals.	1	CLO1
Q.5.	Engineers have a right of _____ recognition for their work and accomplishments.	1	CLO1
Q.6	The standard of truthfulness in engineering is very _____, much higher than in everyday life.	1	CLO1
Q.7	A city advertises a position for a city engineer/public works director, seeking to fill the position before the director retires in order to facilitate a smooth transition. The top candidate is selected after an extensive screening process, and on March 10 the engineer agrees to start April 10. By March 15 the engineer begins to express doubts about being able to start on April 10, and after negotiations the deadline is extended to April 24, based on the firm commitment by the engineer to start on that date. On April 23 the engineer says he has decided not to take the position. The above case violates NSPE Code of ethics. Why?	4	CLO1
